How We May Use and Disclose Your PHI

The following categories describe different ways that we use and disclose your PHI. We have provided you with examples in certain categories; however, not every permissible use or disclosure will be listed in this Notice. Note that some types of PHI, such as HIV information, genetic information, alcohol and/or substance abuse records, and mental health records may be subject to special confidentiality protections under applicable state or federal law and we will abide by these special protections. If you would like additional information about special state law protections, you may contact the Privacy Office or visit www.wooripharma.com.

I. Uses and Disclosures Of PHI That Do Not Require Your Prior Authorization

Except where prohibited by federal or state laws that require special privacy protections, we may use and disclose your PHI for treatment, payment and health care operations without your prior authorization as follows:

Treatment. We may use and disclose your PHI to provide and coordinate the treatment, medications and services you receive. For example, we may disclose PHI to pharmacists, doctors, nurses, technicians and other personnel involved in your health care. We may also disclose your PHI with other third parties, such as hospitals, other pharmacies and other health care facilities and agencies to facilitate the provision of health care services, medications, equipment and supplies you may need. This helps to coordinate your care and make sure that everyone who is involved in your care has the information that they need about you to meet your health care needs.

Payment. We may use and disclose your PHI in order to obtain payment for the health care products and services that we provide to you and for other payment activities related to the services that we provide. For example, we may contact your insurer, pharmacy benefit manager or other health care payor to determine whether it will pay for health care products and services you need and to determine the amount of your co-payment. We will bill you or a third-party payor for the cost of health care products and services we provide to you. The information on or accompanying the bill may include information that identifies you, as well as information about the services that were provided to you or the medications you are taking. We may also disclose your PHI to other health care providers or HIPAA covered entities who may need it for their payment activities.

Health Care Operations. We may use and disclose your PHI for our health care operations. Health care operations are activities necessary for us to operate our health care businesses. For example, we may use your PHI to monitor the performance of the staff and pharmacists providing treatment to you. We may use your PHI as part of our efforts to continually improve the quality and effectiveness of the health care products and services we provide. We may also analyze PHI to improve the quality and efficiency of health care, for example, to assess and improve outcomes for health care conditions. We may also disclose your PHI to other HIPAA covered entities that have provided services to you so that they can improve the quality and effectiveness of the health care services that they provide. We may use your PHI to create de-identified data, which is stripped of your identifiable data and no longer identifies you.

We may also use and disclose your PHI without your prior authorization for the following purposes:

Business Associates. We may contract with third parties to perform certain services for us, such as billing services, copy services or consulting services. These third party service providers, referred to as Business Associates, may need to access your PHI to perform services for us. They are required by contract and law to protect your PHI and only use and disclose it as necessary to perform their services for us.

These oversight activities include audits, investigations, inspections, and credentialing, as necessary for licensure and for the government to monitor the health care system, government programs and compliance with civil rights laws.

Judicial and Administrative Proceedings. If you are involved in a lawsuit or a dispute, we may disclose your PHI in response to a court or administrative order. We may also disclose your PHI in response to a subpoena, discovery request, or other lawful process instituted by someone else involved in the dispute, but only if efforts have been made, either by the requesting party or us, to first tell you about the request or to obtain an order protecting the information requested.

Research. We may use your PHI to conduct research and we may disclose your PHI to researchers as authorized by law. For example, we may use or disclose your PHI as part of a research study when the research has been approved by an institutional review board or privacy board that has reviewed the research proposal and established protocols to ensure the privacy of your information.

II. Uses and Disclosures of PHI that Require Your Prior Authorization
